

## Configure your SpacePole Essentials solution

What makes SpacePole different is our flexibility to mix and match various components and elements into a fully customised solution, perfectly suited for your requirements. View our configurable options below and see what works best for you.

### Step 1: Choose your display mounting solution

#### Screen top mount

- Screen tilt adjustment: +10°/-90°
- Recommended maximum rotation on pole 310°
- 300mm pole (11.8")
- Footprint Ø97mm (3.8")
- Cable hole at the bottom
- Internal cable management
- External cable management clip for additional technology peripherals
- Lock ring included for stability and support
- Tools/fixings included
- Available in 5 standard colours

## Step 2: Add optional modules, accessories & ClickSafe for security

### Swingarm peripheral

- 200mm or 300mm swing arm with cable management
- External cable management with cable clips
- Lock ring included for stability and support

#### Swing arm standard – SPV2101 (200mm) – SPV2103 (300mm)

- For use with our range of printer and peripheral plates

#### Swing arm DuraTilt – SPV2102 (200mm) – SPV2104 (300mm)

- For use with our range of MultiGrip plates for payment devices

#### Swing arm Low Profile – SPV2105 (200mm) – SPV2106 (300mm)

- For use with our range of MultiGrip plates for payment devices
